Summary

Highly motivated and results-oriented Web Developer and aspiring Cloud Practitioner with hands-on experience in developing scalable web applications and cloud-based solutions. Proficient in Next.js, Vue.js, Django, and AWS services, including Elastic Beanstalk. Demonstrated ability to design and implement robust, performant solutions, coupled with a strong understanding of DevOps principles and agile methodologies. Successfully completed job simulations with Verizon Cloud and AWS APAC Solutions, showcasing expertise in cost optimization, architectural design, and technical communication. Seeking a challenging DevOps or Software Testing role within an agile environment.

Experience

Stad solution | Work From Home

Software Tester | 12/2024 - 03/2025

Created BRD and FRD reports weekly, worked on testing travel apps, E-commerce apps, and social media apps.

also understood Agile methodologies and BUG life cycle, Software Development life cycle and software testing life cycle

APAC | Mumbai, Kandivali

08/2024 - 12/2024

Projects * eCommerce Website (Next.js & PHP/WordPress): Developed a scalable eCommerce platform, focusing on performance optimization and user experience. * Fitness Application (RapidAPI & OpenAI API): Integrated APIs to create a dynamic fitness application, showcasing API integration and data utilization skills. * Elastic Beanstalk Hosting Architecture (AWS APAC Solutions): Designed a scalable hosting architecture for a growing client using Elastic Beanstalk, demonstrating cloud architecture knowledge.

India

Web Developer | 01/2022 - 05/2024

-

- * Developed a high-performance eCommerce website using Next.js, resulting in a 25% improvement in page load speed – demonstrating performance optimization skills.
- * Built an eCommerce platform using PHP and WordPress, increasing user engagement by 30% through optimized UI/UX design – highlighting user-centric development.
- * Designed and prototyped multiple web applications using Figma, enhancing usability and visual appeal – showcasing design skills.
- * Integrated RapidAPI and OpenAI API into a Gym Exercise Demonstration Website, resulting in a 40% increase in user interaction – demonstrating API integration expertise.
- * Collaborated with cross-functional teams, implementing agile methodologies for efficient project development.

AWS

Training & Certifications

- * AWS Cloud Practitioner – Gained foundational knowledge of cloud computing.

AWS APAC Solutions Architecture

Virtual Experience Program (Forage)

– Designed a scalable hosting

Verizon

architecture using Elastic Beanstalk. * Verizon Cloud Platform Job Simulation (Forage) – Successfully tested a hypothetical VPN product for Verizon's Cloud Computing team, demonstrating command-line proficiency and cloud-native principles.

Skills

HTML5, CSS3, JavaScript, TypeScript, Vue.js, Ext JS, Django, PHP, SQL, AWS (Elastic Beanstalk, RapidAPI, OpenAI API), Docker, Jenkins, Git, Next.js, WordPress, Figma, Visual Studio Code, RapidAPI, OpenAI API, Jira, Jenkins, RDBMS, MySQL, JSON, Web Design, Responsive Design, UI/UX Design, Agile Methodologies, DevOps, Technical Communication, Problem Solving, Cost Optimization, Architectural Design, Cloud Architecture, Performance Tuning

Education

Yashwantrao Chavan Maharashtra Open University
Software Engineering | 05/2024

Atharva Institute Of Information and Technology
Software Engineering | 05/2020

Certificates

AWS Certified Cloud Practitioner – Foundational
